

FRE[®]
ALCOHOL-REMOVED WINE

ALCOHOL-REMOVED
MERLOT
California Vineyards

WINEMAKING NOTES

Fre alcohol-removed Merlot is produced using the revolutionary spinning cone column. The spinning cone facilitates the removal and safeguarding of fragile wine aromas and flavors at low temperatures, then removes the alcohol at slightly higher temperatures. The wine essences are then re-introduced to the dealcoholized base wine and blended with unfermented grape juice. The finished product is a rich, delicious beverage with the characteristic aromas and flavors of premium wine. Fre Merlot is an ideal choice for both white and red wine drinkers seeking quality, alcohol-removed alternatives for meals, parties, and special occasions.

TASTING NOTES

Fre Merlot boasts an attractive ruby color and enticing cherry and raspberry aromas. This soft red wine possesses the fruitiness and smooth texture characteristic of the Merlot variety. Fre Merlot has sophisticated quality and juicy berry flavors that make it delightful to drink in its own or with chicken, ham, beef, lamb, and pasta dishes.
