

TRINCHERO

NAPA VALLEY

Like its namesake, Mary's Vineyard has a lot of personality. Mary's was the very first vineyard purchased by the Trinchero family in 1980, and holds significant sentimental value. Named to honor Mario Trinchero's wife, Mary's Vineyard has aged very gracefully.

2017

MARY'S

SINGLE VINEYARD

SAUVIGNON BLANC
NAPA VALLEY

VARIETAL COMPOSITION:
90% Sauvignon Blanc, 10% Semillon

RELEASE DATE:
February 2018

Alc: 14.2% | pH: 3.22 | TA: 2.9

CASES PRODUCED:
5,058

VINEYARD INFORMATION

This sustainably farmed estate vineyard sits on 14-acres in the Calistoga AVA and has balanced vines, moderately fertile soils and excellent sun exposure—ideal conditions to grow Sauvignon Blanc with vibrant character.

2017 GROWING SEASON

The 2017 vintage will be talked about for many years to come. As with the previous winter, the end of 2016 brought wet weather to Napa. By the time bud-break neared, some parts of Napa reached over 50 inches of rain. Winter temperatures were more normal and bud-break came about a week later than the prior year. The Napa Valley experienced another beautiful spring with mild daytime temperatures and dry weather leading into hot temperatures in August which quickened ripening. Harvest for Trinchero Napa Valley began on September 4th with our Mary's Vineyard Sauvignon Blanc which was 6 days later than 2016 and slightly later than normal.

WINEMAKER COMMENTS

"Mary's Vineyard is a warm site to grow aromatic white wines and I am consistently pleased with the balance of ripe tropical fruit and bright acidity in the grapes. This wine is entirely fermented and aged in stainless steel to retain its natural fruitiness. This is unmistakably Sauvignon Blanc with aromas of Bartlett pear, apricot, citrus, and lemon blossom balanced with great minerality. This wine is boasting with beautiful complexity and a silky, oily texture with mouth-filling citrus and mineral flavors. Fresh and bright, this medium-bodied, crisp wine ends with a clean and well-balanced finish." – Mario Monticelli
