VINEYARDS

Merlot

SOUTH AUSTRALIA

SOUTH  
AUSTRALIA

At Reynolds Vineyards, we pay careful attention to growing the best grapes and making wines that accurately represent the characteristics of their respective regions.

A collaboration with a distinguished Australian wine producer from New South Wales and South Australia, Reynolds Vineyards offers a range of wines brimming with personality and regional character. Reynolds wines are full of fruit, deeply colored and wonderfully food friendly.

### Vineyard Information

The grapes for this wine were sourced from several regions in the premium grape growing region of South Australia. A mixture of both warm and cool climates ensures complexity and range of flavours, but also allows the winemakers to craft a wine that is ready to drink today. The soils over much of South Australia are predominantly red sandy loam over limestone on gently undulating east west ridges.

### Winemaking

The grapes for this wine were picked at night to make sure that they were as cool as possible. Crushed in a range of fermenters, each parcel of grapes was fermented in the manner assessed to produce the best result for its inherent characteristics. The red skins were regularly mixed during fermentation to ensure that the colour and structure were extracted. Pressed off skins around one week later, the merlot was then allowed to go through a second malolactic fermentation. The wine was aged and allowed to mature in tank before minimal filtration and bottling.

### Tasting Notes

Supple cherry and plum, with vanilla, spice, and a long fruity finish. It's delicious with lamb, pork, roast chicken or pasta.

### Harvest Details

Appellation: South Australia

### Wine Information

Composition: 90% Merlot, 6% Cabernet Sauvignon, 4% Cabernet Franc

Alcohol: 13.5%

Total Acidity: 0.61g/100ml

Residual Sugar: 0.27g/100ml
