

WINEMAKING NOTES

Fre alcohol-removed Rosé is produced using the revolutionary spinning cone column. The spinning cone facilitates the removal and safe-guarding of fragile wine aromas and flavors at low temperatures, then removes the alcohol at slightly higher temperatures. The wine essences are then reintroduced to the dealcoholized base wine and blended with un-fermented grape juice. The finished product is a fresh, delicious beverage with the characteristic aromas and flavors of premium wine. Fre has less than 0.5% alcohol by volume and half the calories of regular wine.

TASTING NOTES

Fre alcohol-removed Rosé is a delicate, pink-hued wine, with lively strawberry and citrus flavors. The palate is crisp and fruity, with ripe berry accents and a beautiful, refreshing finish. Pair this wine with grilled fish or summer salads.
