AMADOR DOUBLE BARREL BOURBON

At Amador Whiskey Company, we partner with the finest distillers to create limited edition, luxury whiskies. Amador Double Barrel is a blend of straight bourbon whiskies aged in new charred American oak barrels for 5½ years, which creates flavors of brown sugar, nuts, and baking spices. It is then finished in medium toast French oak ex-Chardonnay barrels for 6 months, which provides additional vanilla notes and a creamy mouthfeel. The “Double Barrel” aging technique creates characteristics from the individual barrels that are then blended together to make an exceptional tasting Bourbon, far greater than the sum of its parts.
